

“Maritime Firm to Offer Instant Shade with Large Tree Spade Planting Unit!”

Shown is Maritime Landscape Services Ltd.'s new truck mounted Tree Spade, the largest and first of its kind in Atlantic Canada.

The Vermeer TS 84T tree transplanter is mounted on a 350 Mack Superliner and has the capability to dig, transport and transplant up to 10 inch diameter trees (35 feet in height).

For the past thirty years, MLS has been a leader in tree transplanting possessing two Vermeer tree spades, a 30 inch and a 44 inch with capability up to 5 inch diameter trees. With the addition of the TS 84T unit, MLS will be able to offer a more efficient and less costly method to transplant large trees and create instant impact to Maritime landscapes.

Large Truck-Mounted Tree Spade

Tree moving with 44" spade at Acadia

Maritime Landscape Services Ltd. headed by principal and Consulting Arborist, Stan Kochanoff has established a reputation for successful large tree transplanting in the past few years utilizing established and conventional procedures for excavation and preparation of soil balls by hand and transporting by crane and flatbed for the relocation of trees. Projects include large tree transplanting at St Fx University, Antigonish Acadia University, Wolfville and CFB Gagetown in New Brunswick.

Are you ready ...

To do your part to combat climate change and global warming influences by planting more and bigger trees? Why wait, instant shade is now available. Contact us early for quotes on tree transplanting of all sizes for your landscape projects in 2007.

“As a primarily residential campus, maintaining a beautiful campus grounds is a priority for St. Francis Xavier University. At a 150 plus years old and over 60 acres under active daily use, maintaining the complexity of grounds was beyond our capacity. Environova and Maritime Landscape Services have put us back on track, making huge strides in a short time frame by helping us establish and deliver on a concise go-forward strategy for maintenance and renewal of our campus grounds.”

- Ramsay Duff
Vice President, Finance and Operations,
St Francis Xavier University
